

Lesson Plans - Circle Triangle Square

To be used with the album:

“Come and See My Rainbow - Kindergarten Music Volume 1” by Barb McIlquham

Before Teaching the Song:

1. Make up large paper cut outs of a circle, a triangle and a square.
2. Have the students brainstorm all of the things that are those shapes. Print the words and draw a small picture beside each example on the shape cut-out.
3. Review the names and features of a circle, a triangle, and a square. (e.g., points and sides)
4. Have the students draw each shape on the floor with their finger.

After Teaching the Song:

1. Have shape booklets made in a circle, a triangle and a square for each student.
2. have the students print the title for their book; *Circle*, *Triangle*, and *Square*.
3. Using magazines, have the students cut out pictures that depict the particular shape for their book and paste them in the pages of their book.
